

Certificate in terms of air freight transportation

We hereby certify that the Lithium metal battery (button cell) used in the control unit of our products

e-fix E25/E26 and E35/E36

is classified as UN 3091 (installed in the control unit) and meets the requirements of the following regulations or special provisions of

IATA Section II of PI 970

and is therefore **NOT RESTRICTED**.

Condition precedent to meet the above listed requirements is adherence to all safety instructions specified in the user manual.

Packages containing only button cell batteries installed in equipment (including circuit boards) don't need the Lithium Battery Mark 7.1.C.

This certificate does not apply to damaged or defect batteries.

Due to the frequent amendments of the respective regulations, which partly occur on an annual basis this certificate is valid until **31st December 2020**.
